Bobcat

Krum High School

Krum, Texas

1971 was highlighted by our victorious Bobcats-The State Champs led by Coach Enis.

Our "TWO AND ONLY"

He's just one of the gang at K.H.S.

Dedication

Bennie Enis

Bennie Mitchell

Mary Lee Sanderson

Sharon Smith

We, the Seniors of 1973, do hereby dedicate this annual to the above people. In our 12 years at Krum, we have encountered many firsts.

1. Coach Bennie Enis: Coach Enis is the first coach to have ever coached a State-Winning Bobcat Team, and we are glad it happened while we were students of Krum High School.

2. Bennie Mitchell the first black student. We seniors feel that not any black student could have come to Krum and been received in such a way as Bennie. His slapstick humor and unique ability to accept jokes made him a quickly accepted member of the group.

3. and 4. Mary Lee Sanderson and Sharon Smith-the "ONLY" senior girls. We know what we put them through and would probably do it again if we had 12 more years. We just want them to know that we love'm - - all 13 of us.

All of us would have liked to dedicate it to all the teachers, or parents, or even ourselves, but we decided to dedicate it to only four--the four that we felt made our 12 years here at Krum, Good Ones.

Getting ready for Homecoming was really fun. The cheerleaders worked a great deal in planning a successful pep-rally with goody bags ...

a skit, and a spirit stick. Homecoming game opponents were the Chico Dragons. Our announcer, Clark, introduced our candidates for Queen.

Our candidates were Sharon, Beth, Penny, and Liska

Mary Lee, Karen, Kay, and Bunny. Finally our suspense was ended when the Queen was announced as ... Penny. Our "Cominghome Queen" was Sydda Rudd.

Penny Smith, who was crowned by her escort Larry Jones, was given roses.

Where the west wind blows clean, across wide open spaces. And majestic pines and pecan trees grow green and lofty along rolling Texas hills. Texas . . . a good place to call home. And Texans are proud of it.

TP&L shares Texans' special pride in a natural environment. And the Company is working to preserve all the environmental assets possible while providing adequate electric service throughout the territory.

Air monitoring devices have been installed at lignite-fired generating plants as an aid in

air quality control. Also, these plants have been equipped with electrostatic precipitators, devices which will remove substantial amounts of particulate matter from stack emissions. These efforts will help keep Texas air pure and healthful.

To help conserve the natural landscape in every way possible, substations are low-profile structures with underground distribution facilities, screen-type fences

and extensive landscaping. Plant-site lakes are stocked with fish and opened to the public. An experimental catfish farm has been set up at the Trinidad generating plant.

Texas Power & Light Company is pleased to work with Texans to preserve a treasured environment.

IT'S A FACT: During the past twenty years, the costs of many materials and items of equipment purchased by Texas Power & Light Company to produce and supply electric power have risen more than 100%
